

We've got birthday parties down to a science.....hands-on, FUN science! Designed for children ages 6- 11 years of age, High Touch High Tech provides hands-on, FUN sizzlin' science birthday parties and other special events that are totally participatory, totally safe and totally age appropriate for each and every child. Each child becomes a REAL scientist performing REAL experiments! Our sizzlin' science birthday parties combine the most exciting experiments to create FUN science memories that will last a lifetime. **Everyone becomes a Scientist!**

Wow! I absolutely loved it! Matthew and all of the kids loved it too. Meteor Matt was great with the kids and they all listened carefully to him. I couldn't be happier with the party! Thanks so much!

Laura- Richmond

Birthday Party Packages:

Crazy Chemistry Party

It's time to learn about cool chemical reactions! Put on your goggles as everyone makes Space Mud (stretch it, bounce it, and keep it)! The kids will also go ice cube fishing, make gummy candies and the birthday child will erupt a Volcano!! Pull out your camera for these KODAK moments.\$200

Magical Mystery Party

Magic?? It's all science and you will see why as we teach you a few of our tricks that you can show to all of your friends. Make water disappear, stick a needle through a balloon and bend straws with the power of your eyes. These are just a few of the amazing tricks you will learn! \$200

Bugs Party

Is your child wild about bugs? Our Scientists will bring in an assortment of real live bugs for everyone to have a close up look at a Bug's life. We'll create slug slime, spider webs, and even spiders they can eat!!!! This is a party they won't stop talking about! \$200

Panning for Gems

Strike it rich! Each child will become a true geologist, and will use a crusty old miners plate to pan for gems. The gems are REAL and come from all over the world. Of course, the children get to take all or their treasures home. In addition, we make Space Mud, Gummy Candies and erupt a Volcano. A take home magnifying glass is also included. \$200

Space Blast Party

Feel what it's like in space, as we become human gyroscopes. Make Alien Slime! Launch a Rocket! Enjoy Astronaut freeze-dried Ice Cream. (yard space necessary for the rocket launch) \$200

Science of Glamour

Roll up your sleeves, as you make your very own lip gloss, and bath salts to take home. You'll make a very special bracelet that can't be found in any jewelry store! All the colors of the rainbow will be on your finger tips as you discover how glamorous scientists can be! (microwave and table/chairs necessary for this party) \$200
