1 Hour Workshops for 2010

We come to you! All programs are totally participatory by each and every child as we are not a show. All workshops are geared to children 5-11 years of age.

The HT scientist will engage each group of children in non-stop, hands-on, FUN learning for a one hour workshop. Programs include take home materials and each child will receive a certificate.

The cost of this science and nature experience is \$125 a workshop + GST (up to 25 children per group). When booking more than one workshop per day there is a discounted rate available. Book all 9 weeks and you will also receive a discount this summer!

All materials are included in this supply intensive, educational and FUN experience.

Science Experiences That Come To You

778.737.5277

www.ScienceMadeFunBC.net

Make your summer Sizzle with High Touch hands on workshops!

Programming Information:

Float your Boat©

Discover why and how things sink and float. You'll learn how to float everything from an egg to a paperclip. Join the competition as you even create your own unsinkable boat.

Light Fever©

This workshop is hot! You'll use prisms, rainbow glasses, solar beads and more. Each participant will get to take make and take home their own solar bead wristband that changes color.

Soak It Up©

Become a FUN science soaker! Explore the world of chromatography, capillary action and much more! Experiment and take home polymer crystals that can hold up to 300 times their weight in water.

Gas Blast©

Discover how gases are made naturally and chemically and build and take your own anemometer that moves with the help of those gases. With the power of gasses you will see a geyser that erupts more than 15 feet high!

Mystery Science©

There is not much difference between science and magic and we'll teach you why. You'll learn a few of our tricks. With the magic of science you'll make water disappear, stick a needle through a balloon and more.

Tower Power©

Become an architect discover some famous towers and the forces that help them stand. You will get a chance to build a tower and see if it can withstand an EARTHQUAKE test.

Gold Rush©

Go back in time to 1858 and join the prospectors. You'll go panning for gems and test them to find out what is real and what is not. You even get to take home the gemstones that you find!

Mighty Magnets©

Get "attracted" to the magnificent world of magnets. Use repulsion to drive a magnetic car. Discover the force field by using iron fillings and levitate floating magnets. Take home your own magnet.

Vibes©

Explore acoustics and discover how vibrations make sound. Squish vibrations with our Theremin and make water fly with our tuning forks. Make your own wind flute to take home.

Science Made Fun!

"The activities were really fun for all ages we had. Your attitude with the kids was awesome."

Stratford Hall Summer Camp

"It was fun and interesting for all of the kids. The Scientist made the kids feel special and part of it all."

Creation Station

"Our kids said the program was REALLY AWESOME"

Cloverdale Rec Center

These workshops can also be booked for Pro D Days in 2010. Reserve now!
