In-School Science Workshops

High Touch High Tech has been fueling the imaginations of children everywhere, since 1994, by providing FUN, interactive, hands-on science and nature experiences for children. Through discovery style learning and inquiry based dialogue, children are engaged in exciting programs that encourage them to explore the many wonders of science.

With more than 2 million children around the world participating in our programs annually, High Touch High Tech has emerged as the leader in innovative science programming.

High Touch High Tech Chicagoland offers fun and educational 90-minute in-school science experiences. Our fee is \$7.25 per student; Teachers and Parent Chaperones are welcome to participate free of charge. Program fees are usually paid by Parents or the PTA/PTO. High Touch High Tech programs may also be paid for with grant dollars.

All equipment and materials are provided in this supply intensive, educational experience. Students receive educational handouts and/or take home science experiments.

Reservations are required and must be accompanied by a \$50.00 non-refundable deposit to hold the requested date and time for your program. Your deposit will be applied to the total balance.

Please be prepared to provide the following information when making your reservation:

- Number of Classes
- Number of Children per class
- Program Name
- Preferred Date(s)
- Preferred time for each 90-minute class

To see the complete list of available Elementary Programs visit our website at www.ScienceMadeFunCHI.net

Kindergarten through Second Grade Programming Information:

Body Shop ©

Step into the world of the pediatrician's office. Take a deep breath as we listen to our heartbeat with real stethoscopes. See your own pulse! Discover your reflexes and much more!

Chemtun ©

Find out how much fun chemistry can be! Explore chromatography as you watch colors separate before your eyes. Make your own silly putty and gummy candies as we learn REAL chemistry.

Dig It ©

Explore the world of Geology. Learn about gems, rocks and minerals and where they come from. Pan for real gems and keep what you find. Perform acid tests and more as we classify our gems.

Get Buggy ©

Discover the incredible world of bugs. Find out all the cool and creepy things bugs do. See through the eyes of bugs, make your very own beehive and more. Explore the many ways bugs help our world.

Nutty Nutrients ©

Get the essentials as we learn about the food groups. Have FUN as we test for protein, starch and fat. Experiment with vitamins; learn to make healthy choices and much more!

Magnet Makers ©

Discover the properties of magnetism. Have FUN as we uncover all the "attractive" facts. Make your very own electromagnet and much more!

Let's Make Sense ©

Have FUN as we make sense out of our senses. Explore our 5 senses, 1 sense at a time. Discover how much we rely on our senses.

The Chain Gang ©

Join the chain gang, the food chain that is. Have fun as we learn about predator/prey relationships and dissect real owl pellets. Discover why honeybees are so important to the balance of nature and much more.

Weather or Not ©

Learn about weather as we make thunder. Discover all the amazing properties of air. Touch lightning! Make a storm and much more!

What's the Matter ©

Find out what really matters. Have FUN as we explore all different types of matter. Discover bubbling potions for yourself, watch air take up space and even have a contest with carbon dioxide!

Third through Fifth Grade Programming Information:

Cosmic Capers ©

Travel through space as we explore our solar system. Have a real impact as we become crater makers. Discover the moon, eclipses and much more. Enjoy some astronaut ice cream.

Edison's Workshop ©

Explore the amazing world of electricity. Learn what's "current" as you make your very own electrocscope and much more! Get all the Hair-Raising facts!

Finally Fun Machines ©

Finally, a hands-on and FUN program on machines. Make your very own screw out of a carrot. Meet The Facilitator, our cool multi-personality compound machine. Discover the balance in your life as we make our very own levels to take home.

'Fun'omena ©

Get the facts...on those natural acts! Earthquakes, hurricanes, tornadoes and volcanoes. Have FUN as we make them happen in your classroom.

Matter Matters ©

Discover all states of matter including plasma. Explore evaporation rates and the cool journey from liquid to gas. Discover liquid densities and much more!

Meteorology Madness ©

Discover wind chill effect; make heat go up and down! Explore the greenhouse effect, touch a cloud, relate to relative humidity and more!

Globs, Goo & Guts ©

Roll up your sleeves and make all kinds of icky sticky stuff! Have a hands-on look at real cow guts! Learn the systems of the body, and find out what makes us tick!

Rainforest Safari ©

It's all about the rainforest! Build your very own rainforest to keep! Become a tribal shaman and make your very own medicine.

Smarty Plants ©

Discover the amazing world of plants. Learn about photosynthesis. Have a hands-on look at roots, shoots and transportation inside a plant. Get all the "seedy" facts!

The Real McCoy ©

Join us on a fun filled adventure as we discover several famous African American scientists. Have FUN as we do some real cool experiments while honoring these great scientists.

Kindergarten through Second Grade Programming Information:

Jurassic Jr. ©

Step back in time to the age of the dinosaurs. Become a paleontologist and discover real fossils. Uncover the mysteries of the dinosaurs. Make your very own fossil and much more.

Sea Ya' Later ©

Explore our amazing underwater world. Learn about Plankton and get the Beef on Coral Reefs! Discover how marine mammals stay warm. Make your very own reef to keep!
